PROFESSIONAL SUMMARY

Detail-oriented Data Science undergraduate at SLIIT with a strong foundation in Machine Learning, Agentic AI, and data-driven problem-solving. Proficient in Python and SQL, with hands-on experience in data cleaning, preprocessing, exploratory data analysis (EDA), and feature engineering. Experienced in building, evaluating, and deploying Machine Learning models, as well as designing Agentic AI workflows for intelligent automation and decision-making. Skilled in using NumPy, Pandas, scikit-learn, and Power BI to analyze large datasets, visualize insights, and support data science and AI-driven solutions.

EDUCATION

SLIIT UNIVERSITY | BACHELOR OF DATA SCIENCE STUDENT

- BSc (Hons) in Information Technology Specialization in Data Science (Sri Lankan Institute of Information Technology, Expected Graduation 2027) | 2023 - 2027
- **GPA: 3.5**
- Advanced Level (A/L) Examination (Physical Science Stream) | 2022
- Level (O/L) Examination (8As, 1B) | 2019

TECHNICAL SKILLS

- Programming Languages: Python, Java, HTML, CSS, SQL, HiveQL
- Libraries & Frameworks: Pandas, NumPy, Matplotlib, Seaborn
- Machine Learning Models: NLP, CNN, Scikit-learn, Regression, Classification, Clustering
- Databases: MongoDB, MySQL
- Tools: VSCode, Git/GitHub, Google Colab, Jupyter Notebook, Power BI, Canva, Figma
- Cloud Platforms: AWS, Azure
- Soft Skills: Analytical Thinking, Team Collaboration, Problem Solving, Communication
- Additional Skills: Data Cleaning, Model Evaluation, Feature Selection, Predictive Analytics, AI Tools, AI Agentic Knowledge

PROJECTS

Personalized Art Generator | 2025

- Tech Stack: AI Agentic System, Streamlit, Spacy, SDXL, CLIP, GPT-2
- Developed a personalized art generator that creates images based on user styles and generate images iteratively based on user feedback
- GitHub Repository: <https://github.com/Ashinshani/Personalized-Art-Generator-.git>

Electric Vehicle Prediction System | 2025

- Tech Stack: Regression, Classification, Time Series, Clustering
- Deployed a predictive model to forecast electric vehicle trends, check CAFV eligibility, and support infrastructure planning. Model accuracy gives 0.91
- GitHub Repository: <https://github.com/Ashinshani/Electric-Vehicle-Prediction-System.git>

AI ChatBot | 2025

- Tech Stack: Gemini API, JavaScript, HTML, CSS
- Implemented a chatbot using the Gemini API that supports answering questions with emoji picker and image understanding and contextual replies.
- GitHub Repository: <https://github.com/Ashinshani/AI-Chatbot.git>

E-commerce Sales Dashboard | Freelancing project | 2025

- Tech Stack: Power BI
- Built an interactive E-commerce sales dashboard analyzing revenue trends, customer behavior, and product performance to support data-driven decisions
- GitHub Repository: <https://github.com/Ashinshani/E-Commerce-Sales-Analysis-Dashboard.git>

Fitness Tracker Power BI dashboard | 2025

- Tech Stack: Power BI
- Developed a Fitness Tracker Dashboard to monitor activity levels, calorie burn, and workout trends using interactive visualizations for performance tracking and insights.
- GitHub Repository: <https://github.com/Ashinshani/Fitness-Dashboard.git>

Heart Disease Prediction App | 2025

- Tech Stack: Python, NumPy, Pandas, Scikit-learn
- Created a predictive model to assess heart disease risk based on medical data, integrated with a user-friendly interface using Streamlit.
- GitHub Repository: <https://github.com/Ashinshani/Heart-Disease-Prediction-App.git>

Movie Recommendation System | 2025

- Tech Stack: Python, Data Cleaning, NumPy, Similarity Algorithms
- The system leverages content-based filtering techniques to suggest personalized movie recommendations based on user preferences.
- GitHub Repository: <https://github.com/Ashinshani/Movie-Recommendation-System.git>

Coffee Sales Data Analysis Dashboard | 2025

- Tech Stack: Power BI
- This project presents an interactive Coffee Sales Analytics Dashboard built using Power BI to analyze sales performance, customer purchasing patterns, and product-level insights. and dashboard is designed with a modern UI
- GitHub Repository: <https://github.com/Ashinshani/Coffee-Sales-Dashboard-Power-BI.git>

CERTIFICATES

- AI/ML Engineer - Stage 1 and Stage 2 | SLIIT
- AI ML Projects | Simplilearn
- Mathematics for Machine Learning | Simplilearn
- Python Essentials | Cisco
- AWS Certifications | AWS Skill Builder
- Azure Certifications | Microsoft
- Power BI | Microsoft
